

CLIMATIC PLAN

This plan aims to carry out a Climatic Behavior Diagnosis Questionnaire for the companies, in order to analyze their current context in the framework of the fight against Climate Change, and provide recommendations to improve the performance through cost-efficient activities, as well as the constant support in the design and implementation of transition strategies towards sustainable economies.

BENEFITS

- Acknowledge the current status of environmental strategies according to international Standards.
- Cost-efficient project design.
- Guidance in the implementation of climate and environmental strategies.
- Environmental and / or climatic risk studies.
- Seal and business recognition for being leaders in the fight against climate change.

THE AFFILIATION INCLUDES

- Online Climatic Diagnose Questionnaire (CDQ): Contains 127 questions focused on 8 areas that are: Corporate Governance, Planning, Greenhouse Gases Emissions, Energy, Water Resources, Environmental Policies, Circular Economy and Commitment.
- CDQ Final Report (% Climate Performance, Recommendations, Gantt Diagram).
- Climate and / or Environmental Policy.
- Cause and Effect Matrix.
Paper recycling and saving programs.

THE AFFILIATION INCLUDES

- Guidance and advice on environmental regulations.
- Access to our bank of recommendations, giving to your company the possibility to use some of the 200 suggestions that we have designed depending on the sector.
- Identification of recommendations (execution time and investment grade).
