

COMMERCIAL PLAN

The Commercial Plan has the goal of increasing the potential customers of the companies by strengthening its networks in the market as a leader for Climate Action. It aims to boost the development through environmental and green policies in Colombia, Peru and Chile through a business platform.

B2B-AC Contact platform service

The B2B-AC Contact Platform enables you to access an up-to-date database with the contact information of decision makers in all the Pacific Alliance. The B2B-AC Contact Platform obtains information from profiles using a combination of web search engine and data mining algorithms for business recognition and email prediction. This indicates that all information provided by our site is available in sources available on internet public sites.

¿What Contains B2B-AC

With the B2B-AC Contact Platform (contactos.accionclimatica.net), you will be able to acquire the contacts of the main managers from companies of any sector, in the countries that make up the Pacific Alliance, (Colombia, Chile, Peru and Mexico), according to your needs.
